## NEW URBAN CONNECTION

Aeroworld 8 presented new outdoor retail areas, Aerobliss that built in 2,4 hectares as one of choices for growth business development. It has strategic location and accessibility from Soekarno Hatta International Airport and city center through good connectivity to toll road.

## BEEHIVE OF ACTIVITY

Building design develops more creative like beehive and it has secondary skin on layering between first and second floor in order to reduce heat, nevertheless makes building more attractive. The retail space will be culturally and economically varied, offering a unique chance to create a diverse mix of uses that responds to your needs.

For future development, Aeroworld 8 will become a new destination; whereas Aerobliss will take charge of it. The plan will be a mix supporting and synergized uses including work residential, entertainment, hotel and retail uses.

Step out from Aerobliss and you will also experience the life of rich in sights and sound of nature and the surrounding calming lake weed, wide pedestrian pavement and beautiful tree line with lighting of commercial facilities such as cafes and restaurants on indoor retail square.
