When We Create A Place, We Create A Personality

What makes a place unique?

It's really about mindful planning.

It's about breaking away from the monotony of conventional design, and creating inspiring spaces that seamlessly blend the indoors with the outdoors.

A place where you can reconnect with people, with nature or even just with yourself.

A place where you'll experience a real difference and want to be a part of it.

When We Get The Places Right, The Town Works

In our masterplan for this 257-acre township, we looked at the land and the best ways to enhance it. The township is designed to be the epitome of luxury and the new vibrant pulse of the community. Thus Quayside, a lifestyle waterfront hub, has been created to make twentyfive.7 the most desirable residential address in Kota Kemuning and beyond.

Welcome Home

These designer link villas are specially created for those who are seeking homes that suit their personality. With multi-façade designs that are the first-of-its kind in Malaysia, you can select a home that best suits your lifestyle.

This community is masterplanned with your safety & security in mind. From the 24-hour guardhouse to the cul-de-sacs that reduce traffic and enhance walkability on the lush promenades, this is an environment that certainly gives you peace of mind.

A Town Is A Community

Life at twentyfive.7 is more than just about beautifully-crafted homes, it's about the community that will call this place home. That's why when we designed this town, we thought of not just the home place. We also thought of the park place, work place, gathering place, play place, shopping place and eating place. We focus on creating living spaces that bring the community here closer together. When people move in, they will get a feel for the place and want to call it home.
